SATYABAN CHOUDHURY

SENIOR NETWORK & INFRASTRUCTURE ADMINISTRATOR

Hyderabad, India | +91 77353 73892 | chou.satyaban123@gmail.com
linkedin.com/in/satyaban-choudhury | satyabanchoudhury.github.io

PROFESSIONAL SUMMARY

Senior Network & Infrastructure Administrator with 3+ years designing, deploying and securing enterprise network, server and endpoint infrastructure for organisations of 200+ users. Microsoft 365 Certified: Endpoint Administrator Associate (MD-102), Fortinet Certified Associate in Cybersecurity and CCNA. Specialises in next-generation firewall administration (FortiGate, Sophos XGS), SSL/IPsec VPN architecture, Microsoft Intune and Defender, Active Directory, IT migrations and SOC 2 Type II / ISO 27001 compliance. Track record of holding 99.5%+ uptime SLA, improving system performance by 40%, reducing downtime by 30% and lifting SLA adherence by 75%, and leading zero-downtime infrastructure and email migrations.

CERTIFICATIONS

- **Microsoft 365 Certified: Endpoint Administrator Associate (MD-102)** — Earned Jun 2026 · valid to Jun 2027
- **Fortinet Certified Associate — Cybersecurity** — Issued Mar 2026 · valid to Mar 2028
- **Fortinet Certified Fundamentals — Cybersecurity** — Issued Mar 2026 · valid to Mar 2028
- **Cisco Certified Network Associate (CCNA)** — Completed
- **Fortinet NSE 4 — Network Security Professional** — In progress
- **CompTIA Security+** — Planned

All credentials independently verifiable — verification links available at satyabanchoudhury.github.io

KEY SKILLS

- Network Security & Segmentation
- Firewall & VPN Architecture
- Endpoint Management & Compliance
- Threat Detection & Incident Triage
- Identity & Access Management
- IT Infrastructure Migration
- Email & Cloud Migration
- Change & Rollback Planning
- SOC 2 / ISO 27001 Audit Readiness
- SOP & Runbook Documentation
- High Availability & SLA Management
- Backup & Disaster Recovery

IT SKILLS

Networking	Switching & routing (RIP, EIGRP, OSPF), VLAN / 802.1Q, VTP, STP, PVST, TCP/IP, DNS, DHCP, LAN/WAN design, Cat6 structured cabling
Firewall & VPN	Fortinet FortiGate 100F/80F, Sophos XGS2100, SSL VPN, IPsec VPN (remote & site-to-site), OpenVPN, FortiClient, web filtering
Endpoint Management	Microsoft Intune (MDM/MAM), Windows Autopilot, device enrollment, compliance policies, conditional access, remote wipe, patch management
Threat & Security	Microsoft Defender portal (detection, incident triage, security posture), Bitdefender GravityZone, Sophos DLP, FortiClient EMS
Server & Directory	Windows Server 2019/2012 R2, Active Directory (500+ objects), Microsoft Entra ID (Azure AD), Group Policy, TrueNAS, WD My Cloud, ESSL
Wireless & Hardware	Cisco Aironet 1850, Cisco CBS350 switches, HPE ProLiant, Dell PowerEdge, TP-Link PoE, rack & UPS
Virtualization	Hyper-V, VMware · Monitoring: PRTG Network Monitor
Cloud & SaaS	Microsoft 365, SharePoint, OneDrive, Google Workspace, Zoho Mail & Suite, MX / SPF / DKIM / DMARC
Compliance & GRC	SOC 2 Type II, ISO 27001 auditing, SOP authoring, policy governance, incident response
OS & Scripting	Linux (CentOS 7, Ubuntu), macOS, Windows 10/11 Enterprise, PowerShell automation
VoIP & ITSM	Avaya IP Office, AssetTiger, CMDB documentation, AnyDesk, TeamViewer, RDP

PROFESSIONAL EXPERIENCE

Sr. System & Network Administrator — Jul 2025 – Present

SmartDocs Business Solutions · Hyderabad, India

- Primary IT L2 escalation point for a 200+ employee environment, consistently maintaining 99.5%+ uptime SLA across all business-critical systems.
- Architected and manage FortiClient VPN infrastructure (SSL & IPsec) enabling secure remote access for 100+ concurrent users across geographically distributed sites.
- Lead LAN/WLAN infrastructure operations across Cisco CBS350 managed switches, Cisco Aironet 1850 wireless and TP-Link PoE switches, ensuring high-availability connectivity.
- Configure, monitor and optimise FortiGate 100F/80F next-generation firewalls for perimeter defence, threat inspection and VLAN-based traffic segmentation.
- Led the move from Active Directory to Microsoft Intune (MDM/MAM) with Entra ID and Autopilot; manage enrollment, compliance, conditional access and remote wipe.
- Manage Active Directory (500+ objects) and ESSL biometric servers for identity, access control and attendance management.

- Administered Bitdefender GravityZone endpoint protection, then led the organisation-wide migration to Microsoft Defender; now operate the Defender portal for threat detection, incident triage and security posture monitoring.
- Develop PowerShell automation for routine administrative tasks and manage Windows patch deployment validation across the enterprise fleet.
- Drive SOC 2 Type II and ISO 27001 compliance audits — gathering evidence, remediating control gaps and coordinating with external auditors.
- Author IT SOPs, network runbooks, security policies and incident response playbooks to standardise operations and strengthen governance posture.

IT & Network Administrator
Jun 2024 – Jun 2025

Hearing Solutions Pvt. Ltd. · Hyderabad, India

- Delivered IT L2 support for a 150-seat call centre with rapid mean-time-to-resolution across hardware, software and network issues, improving SLA adherence by 75%.
- Configured Sophos SSL VPN and OpenVPN tunnels providing secure remote connectivity for a distributed workforce, significantly reducing access-related incidents.
- Led enterprise-wide Windows 11 deployment — managing imaging, driver compatibility and user migration with zero data loss across 150+ endpoints.
- Maintained Sophos XGS2100 next-generation firewall: threat policies, web filtering and granular traffic inspection protecting business and customer data.
- Implemented Sophos Data Loss Prevention (DLP) policies to safeguard sensitive customer and business information from unauthorised exfiltration.
- Configured and maintained ESSL, TrueNAS and WD My Cloud EX4100 NAS for centralised storage, backup and disaster recovery readiness.

Network Engineer
May 2023 – Jun 2024

YuppTV India Pvt. Ltd. · Hyderabad, India

- Provided IT L2 support for 100+ users, managing the end-to-end lifecycle of desktops, laptops, servers and network equipment.
- Configured Fortinet VPN tunnels (SSL/IPsec) and maintained on-premise Avaya IP Office VoIP infrastructure for business communications.
- Implemented DLP policies and produced comprehensive network topology documentation supporting disaster recovery planning.
- Managed Windows 10 Enterprise deployments using standardised imaging and post-deployment validation, minimising rollout incidents.
- Resolved complex macOS issues from installation through performance tuning, and provided Office 365 troubleshooting organisation-wide.

PROJECTS

Bitdefender GravityZone to Microsoft Defender Migration
Jul 2026 – Sep 2026

SmartDocs Business Solutions · Hyderabad, India

- Replaced Bitdefender GravityZone with Microsoft Defender to align endpoint security with the Microsoft stack — migration planning, policy transition, deployment validation and alert/incident operations.

Corporate Office Relocation — End-to-End IT Infrastructure Migration
Jan 2026 – Mar 2026

SmartDocs Business Solutions · Hyderabad, India

- Led the complete IT infrastructure migration for 150+ users during a corporate office shift, executed over a weekend with zero business-hour downtime.
- Managed planning, asset tagging, server-room, rack and UPS relocation, Cat6 cabling and patch panels, network bring-up and 150+ workstation go-live validation.

  Tools: Windows Server 2019, ESSL, Cisco CBS350, Aironet 1850, TP-Link PoE, FortiGate 100F, site-to-site IPsec VPN

Active Directory to Microsoft Intune Endpoint Migration
Aug 2025 – Oct 2025

SmartDocs Business Solutions · Hyderabad, India

- Migrated user and endpoint management from traditional Active Directory to Microsoft Intune with Entra ID — device enrollment, Autopilot provisioning, configuration, compliance, conditional access and remote management.

Email Migration — Google Workspace to Zoho Mail & Microsoft 365
Jul 2024 – Oct 2024

Hearing Solutions Pvt. Ltd. · Hyderabad, India

- Led the end-to-end email migration for 700+ employees using a phased strategy — mailboxes, contacts, calendars, shared drives, accounts and distribution lists.
- Configured MX, SPF, DKIM and DMARC records, resolved delivery and authentication issues, and delivered user training and support documentation.

EDUCATION & TRAINING

B.Sc. Electronics · Berhampur University, Odisha — **2018 – 2021**

Linux Administration · Course completion, Udemy
